# SCM INVESTMENT & TRADING COMPANY LIMITED Notes to Financial Statements for the Year ended 31st March, 2019

#### Basis of Preparation

The financial statements have been prepared to comply in all material aspects with the Accounting Standards Notified by the Companies Accounting Standards Rules, 2006 (as amended) and the relevant provisions of the Companies Act, 1956. The financial statements have been prepared under the historical cost convention on an accrual basis. The accounting policies applied by the Company are consistent with those used in the previous year, except for the change in accounting policy explained below.

# 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- a Long Term Investments are considered at cost on individual basis, unless there is permanent decline in value thereof in which case adequate provision is made against the dimunition in the value of investments
- b Items of Income and Expenditure are recognised on accrual basis.

## C <u>Income taxes:</u>

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act, 1961. Deferred Tax reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

The deferred tax for timing differences between the book and tax profits for the year is accounted for using the tax rates and laws that have been substantially enacted as of the Balance Sheet date. Deferred tax asset is recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax asset can be realised. In situations where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

At each Balance Sheet date the Company re-assesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax assets to the extent it has become reasonably certain or virtual certain, as the case may be that sufficient future taxable income will be available against which such deferred tax asset can be realized.

The carrying amount of deferred tax assets are reviewed at each Balance Sheet date. The company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

# D Earning per Share:

Basic earning per Share is calculated by dividing the net profit or loss for the period attributable to Equity shareholders by the weighted number of Equity shares outstanding during the period.

For the purpose of calculating diluted earning per share, net profit or loss for the period attributable to Equity share holders and the weighted average no. of shares outstanding during the period, are adjusted for the effect of all dilutive potential equity shares.
